

Publication Scheme

What is a Publication Scheme?

All Public Authorities must make certain types of information available under the [Freedom of Information Act](#) and do so via a [Publication Scheme](#) which is approved by the Information Commissioners Office ([ICO](#)).

The Publication Scheme sets out:

- What information is published or will be published routinely i.e. Staff structure, salary scales, minutes of meetings, annual reports
- The way / format the information will be published
- If the information is free or whether there is a charge

Categories

Information is divided into 7 sections:

1. Who we are and what we do..... [Page 3](#)
2. What we spend and how we spend it..... [Page 4](#)
3. What our priorities are and how we are doing..... [Page 5](#)
4. How we make decisions..... [Page 6](#)
5. Our Policies and Procedures [Page 7](#)
6. Lists and Registers..... [Page 9](#)
7. The services we offer [Page 10](#)

Some information is not normally made publicly available; for example Incident reports or investigations. If you are unable to find the information you want in the Publication Scheme or on the [website](#), you can make a [Freedom of Information Act request](#).

You can also request information you believe Hereford & Worcester Fire Authority (HWFA) holds about you – [How to request personal information](#). HWFA does not charge current members of staff to access their personal records but a £10.00 charge is applicable in all other instances.

Information Format

All information is available electronically unless otherwise stated, though hard copies may be supplied on [request](#).

Where possible, information in this Publication Scheme will be available on the website and unless otherwise stated, is usable under the [Open Government Licence](#) scheme.

Availability and Cost

HWFA makes as much information available as possible without charging a fee. There is no postage charge for information sent by email or the first single posted copy but there may be a charge for any subsequent reproductions to cover postage costs. Further information is available in the Publication Scheme below or in the Service's [Cost Recovery Policy](#).

Incident Reports

For details on how to apply for an incident report, please refer to [Request an Incident Report](#) section of the website.

Fire Service Reports on major incidents

Major Incidents are defined by the [Joint Emergency Services Interoperability Programme](#) as “An event or situation requiring a response under one or more of the emergency services’ major incident plans”. A major incident may be declared by a single blue light service or jointly.

Fire Service Major Incidents Reports will be published on the Service’s website after any necessary incident investigation has been completed.
